

# Department of Military Affairs Amendment

STATE OF MONTANA  
INVITATION FOR BID ADDENDUM  
IFB NO.: 090109  
TO BE OPENED: March 25, 2009  
TITLE: Vegetation Sampling and Monitoring

## ADDENDUM NO. 2

To All Bidders:

Clarification to specifications of the above-referenced "Invitation for Bid":

1. Should be another cost estimate added for each sites' transect monitoring? Cost estimates should be completed for each: 6 Ecodata plots, 6 transects, and establishment of 14 Ecodata plots at Fort Harrison; and 6 Ecodata plots, 6 transects, and establishment of 10 Ecodata plots at Limestone Hills TA.
2. Is there a set form used for results?  
We do not have a set form that we use, although there are certain data fields that are required. Many of the data entry protocols can be found in the 2008 Vegetation Monitoring Report as available through the Environmental Office of Military Affairs.
3. Do you have a list of plots that will be visited this year?  
Yes, maps and GPS locations will be made available after the contract is awarded.
4. How much past monitoring data needs to be reviewed by contractor?  
The contractor is expected to review the past monitoring data for only those plots that have been chosen for 2009 monitoring. The contractor will, however, be given data for all plots and transects that are currently in place and can review them if they choose.
5. Cost proposal?  
The costs of required meetings, data review, draft revisions, and the final report should be incorporated into each cost estimate.

All other terms of the subject "Invitation for Bid" are to remain as previously stated.

### Acknowledgment of Addendum:

The bidder for this solicitation must acknowledge receipt of this addendum. This page must be submitted at the time set for the bid opening or the bid may be disqualified from further consideration.

I acknowledge receipt of Addendum No. 1.
